SKILLS

- IoT
- Block Chain
- Programming
- Cloud Computing

PROJECTS

Home Automation System

- Developed a smart home automation system using IoT technologies.
- Implemented remote control of home appliances, Integrated with voice assistants for hands-free operation

Voting with Blockchain

- Developed a decentralized voting application using blockchain technology.
- Ensured transparency and security through blockchain, Enabled tamper-proof voting records

HONORS AND AWARDS

Selected Participant, European CanSat Competition

- European Space Agency
- An esteemed event challenging engineers to design, build, and launch miniature satellites within a cansized container.
- Demonstrates technical excellence, problem-solving skills, and a strong commitment to advancing aerospace engineering innovation.

CERTIFICATIONS

Professional Certificate Program in Blockchain by IIT Kanpur

- Obtained specialized training from IIT Kanpur in Blockchain technology, gaining expertise in decentralized systems, crypto currencies, and smart contracts.
- This program enhanced my knowledge in emerging technologies and their applications in various industries.

INTERESTS

- Block Chain
- Artificial Intelligence
- Machine Learning
- Internet of Things
